Omschrijving:

Located in Anadia.

We present a unique acquisition opportunity: Caves do Freixo, a set of industrial facilities with 11,090 m² of gross building area and 12,210 m² of land. Located in Sangalhos, along EN235, the property benefits from easy access to major roads connecting the municipalities of Oliveira do Bairro, Anadia, and Mealhada, and is also close to the junction for the A1 (Lisbon/Porto) and IC2 highways.

The property consists of three distinct buildings:

- Building A:** Situated at the front of EN235, this building includes a reception area, bar, kitchen, support warehouse, and an interior courtyard. The first floor houses offices and support rooms. The structure is made of reinforced concrete, with a ceramic tile roof and various interior finishes.
- Building B:** This three-story building includes industrial warehouses on the ground floor and wine storage cellars on the two lower levels. The construction is made of reinforced concrete, with a 5-meter ceiling height on the ground floor and 3 meters in the cellars.
- Building C:** Located on the other side of Rua do Pedregal, this building consists of two independent warehouses for wine storage, featuring cement vats. The structure is made of reinforced concrete, with a mixed roof of fibrocement and ceramic tiles.

The property offers two vehicle access points, one via EN235 and another via Rua do Pedregal,

facilitating the logistics flow. Its strategic location, near key road connections, provides excellent logistical potential, making this property an ideal option for businesses in the wine industry or other sectors needing large storage and distribution spaces.

With a total land area of 12,210 m² and a building footprint of 6,340 m², Caves do Freixo offers excellent conditions for industrial or commercial activities.
