Omschrijving:

If you want a single storey house, this is for you.

Under construction in Pinhal do General in Fernão Ferro, next to Quinta do Conde, is this single storey house in a 2 bedroom version, semi-detached, on a corner lot.

This villa is under construction and will be ready at the beginning of 2027.

The choice between T2+1 or T2 version can also be made, with the T2 version costing 410,000 and T2+1 435,000.

The villas have an already electrified pergola, ready to receive the charger for your electric or hybrid car. They can be closed, being ready for that purpose.

The build quality is exceptional and the finishes are tailor-made. We can show finishes in other constructions to get a vision of how it will look in the final version.

It is an hour away from the A23, the A1 and the train line with access through Laranjeiras if you work in Lisbon and want to have options to go by car.
