Omschrijving:

Ferreira de Castro Flats Condominium - 2 bedroom apartment with garage and storage in the center of Porto

Ferreira de Castro Flats is a residential building with a markedly contemporary language, located in front of the historic Bonfim Church, in Porto. Designed by renowned architect Adriana Floret, the building offers a perfect combination of design, comfort and functionality, with 38 apartments spread over 6 floors. Located in the Bonfim neighborhood, a residential area in full transformation, this development is ideal for those looking to live in the vibrant and artistic surroundings of downtown Porto.

Bonfim is the new trendy neighborhood of Porto, much sought after by young people and foreigners, both for its strategic location and for its rich cultural and commercial offer. The proximity to the School of Fine Arts and the Soares dos Reis School brings a unique artistic atmosphere to the place. The neighborhood offers a wide network of public transportation, as well as restaurants and local shops, which makes it one of the most dynamic neighborhoods in the city.

A 10-minute walk away is the Campo 24 de Agosto metro station and the new Campanhã Intermodal Terminal (metro, train and express network). On Rua do Bonfim there are numerous buses that end their march at the Bolhão market.

Contemporary architecture: Building with modern and elegant design.

Large balconies: All apartments have generous balconies, integrating the interior and exterior spaces.

Functionality and Comfort: Well-planned floor plans to ensure the efficiency of the space.

Sustainability: The building incorporates modern and sustainable elements.

umseisum is a technical reference studio, with competence in the areas of architecture, engineering, construction, design and decoration, with an internal team of dozens of managers, engineers, budget meters and architects.

In addition to the technical areas, umseisum has a multidisciplinary team of business managers, trained and specialized in the integrated service that the company offers.

By bringing together skills throughout the construction process cycle, from the search for the property, through the development of the projects necessary for its rehabilitation or remodeling, to the planning and execution of the work, and until its delivery, equipped and decorated, umseisum offers its clients the resulting advantage, that is, the synergy created between the various teams, which translates into a reduction in the value of the investment and obtaining a product that meets expectations.

Thus, through your real estate area, it is possible to find the house, loft, apartment, villa or land, small or large, that corresponds to the ideal of your customers and negotiate the best price for your purchase, use the architectural area to idealize all the spaces of the house with quality, durability and at low cost, lay the construction, recovery, restructuring or rehabilitation in its engineering and construction areas, and designing pieces of furniture, also decorating the total space, with its design and decoration areas.

With its business plan fully focused on optimizing its clients' investment, umseisum specializes in achieving its objectives, taking into account their tastes, needs and financial resources available for each project.
