Omschrijving:	
Located in Corbeanca.	

Some homes impress through size. Others through design.  
And some manage to create something far more rare: a feeling.

This property in Corbeanca is one of those places where the quiet of the forest, natural light and architecture come together to create a space that feels like home from the very first moment.

Located right at the edge of the forest, on a street that quietly ends in nature, the house offers a rare level of privacy. Positioned on a corner plot, with no direct neighbors on the forest side, the green view becomes part of your everyday life.

The architecture is designed to enhance this connection with nature. The living area stands out through its volume and light, while the full glass curtain wall opens the interior entirely towards the garden and the forest. It is a spectacular yet warm and inviting space, where evenings by the fireplace or moments spent with family gain a special atmosphere.

The living area flows naturally into the dining space, elegant and perfectly proportioned for relaxed meals or entertaining guests. The indoor kitchen is fully furnished and equipped, while the outdoor kitchen and built-in pizza oven complete the experience of outdoor living.

The house has a built area of approximately 344 sqm and features a generous and versatile layout.

---

The property offers a total of 7 rooms, including 5 bedrooms, as well as independent spaces with multiple possible uses. There is a separate room at the entrance, and in the backyard, a wooden annex with its own bathroom, ideal for a nanny, guest house, office or creative studio.

The basement is currently arranged as a wine cellar and hobby room, but it can easily function as an additional bedroom or relaxation area.

Upstairs, you will find spacious bedrooms, a dressing area and bright rooms, all enjoying beautiful views of the garden or forest.

The property features 4 bathrooms, a fully functional outdoor sauna, an automatic garage for 2 cars and approximately 700 sqm of garden.

The house is built on a mixed structure of concrete frames and metal structure, allowing large open spaces and a modern architectural concept.

Another key advantage is the perfect balance between nature and accessibility. Corbeanca is one of the most sought-after residential areas in the north of Bucharest, offering quick access to DN1, the city and Henri Coanda International Airport. Nearby, you will find shopping centers, restaurants, schools and kindergartens.

This is not just a house.  
It is a lifestyle.
