### Omschrijving:

Bank allotment with 21,000 M2 consisting of 105 plots of land located in the Pinhal de Negreiros Urbanization, in Azeitão.

A unique real estate investment opportunity is presented in the Pinhal de Negreiros Urbanization, in Azeitão, one of the most sought after and valued residential locations in the Setúbal Peninsula, recognized for its high quality of life, proximity to nature and excellent access to Lisbon and Setúbal.

The asset corresponds to a set of 105 plots of urban land, mainly intended for housing, complemented by plots for commerce, allowing the development of a real estate project of significant size and high potential.

Inserted in a consolidated residential area, the development benefits from a stable urban environment, with easy access to the main roads (A2, A33, EN10), as well as proximity to rail transport, commerce, services and equipment.

The proximity to the Serra da Arrábida and the beaches reinforces the attractiveness of the location, positioning the project as a high-quality housing solution for permanent residence.

The rarity of this opportunity is also highlighted, given the lack of comparable assets in the surroundings with this size, urban framework and construction capacity, which reinforces its position as a strategic

investment for real estate developers.

Pinhal de Negreiros represents an exceptional opportunity for medium large-scale real estate development, combining location, size, sustained demand and strong potential returns, in one of the most dynamic residential markets in the Setúbal region.
