Omschrijving:
There are houses that are sold.

And there are others that only a few get to discover.

This is one of them.

In one of the most desirable locations in Ordino, we are developing a self-contained residence designed for those who value architecture, privacy and the environment above anything else.

The project already has a valid construction license and is scheduled to be completed in May 2027.

Before its official presentation to the market, we offer the possibility that a very small number of buyers get to know this project in a privileged phase.

The project foresees:

Independent housing.

Multipurpose space with the possibility of becoming a multimedia room cinema, private gym, office or a room.

Large panoramic terrace.

Private garden with outdoor leisure area.

Privileged views of the Pic del Casamanya.

Private garage and storage room.

Materials, equipment and finishes of the highest quality.

We do not yet publish plans, renders or the exact location.

We believe that some properties deserve a different marketing: discreet, selective and reserved for those who know how to recognize an exceptional opportunity before the rest of the market.

If Ordino is the place where you imagine your next home and you would like to know about this project before its official launch, contact us.

The best properties do not always reach the market. Some simply find their owner before that happens.
