Omschrijving:	ANTAS - BUILDABLE LAND

Located in Antas, this plot of land benefits from exceptional sun exposure — oriented north, south, east and west — enjoying natural light throughout the day, making it a truly bright lot with excellent building potential.

With a total area of 1,472 m², the land offers generous dimensions that allow for construction projects with ample planning flexibility. Its configuration and exposure to all cardinal directions provide real flexibility in the orientation of the future home, ensuring solar comfort in any season.

From an infrastructure perspective, the plot is already connected to electricity, drinking water and wastewater networks, which represents a concrete advantage when starting any construction project.

Excellent location just 2 minutes from exit no. 20 of the A28 motorway, providing access to the main cities in Northern Portugal such as:
