Omschrijving:	

Discover an exceptional opportunity to build a contemporary 5-bedroom villa designed by renowned architect Vasco Vieira, set on a generous 1,350 sq.m. plot in Torrejão, Loulé. Combining striking architecture, generous proportions and an elevated Algarve setting, this approved project has been conceived to create an outstanding modern residence where design, privacy and outdoor living take centre stage.

The project comprises two floors above ground plus a substantial basement, offering 418.60 sq.m. of gross construction area above ground and an impressive 517.85 sq.m. of total usable area. The villa has been designed with five bedrooms, spacious living areas, six bathrooms across the main residential floors, covered terraces and carefully planned spaces that maximise comfort and natural light.

One of the project's most distinctive features is its spectacular rooftop terrace. Conceived as a privileged leisure area with sea views, it incorporates an infinity pool that elevates the outdoor experience and creates a remarkable setting from which to enjoy the Algarve climate and surrounding landscape.

The basement significantly expands the versatility of the property, providing extensive storage and utility areas, a laundry room, bathroom and a generous 64.70 sq.m. garage. The combination of substantial

interior areas and extensive outdoor spaces makes the project equally suited to permanent living or as an exceptional second home in the Algarve.

Located in Torrejão, within the municipality of Loulé, the property benefits from a strategic position in the Central Algarve, with convenient access to Almancil, Loulé, Vilamoura and the prestigious resorts, golf courses and beaches of the Golden Triangle.

With an approved architectural project by Vasco Vieira, a rooftop infinity pool, sea views and over 500 sq.m. of usable space, this plot represents a rare opportunity to create a distinctive contemporary home in one of the Algarve's most desirable areas.
