Omschrijving:

We present this rare 3,270 sqm plot located in Funchal, set in a medium-density area according to the municipal plan (PDM), ideal for residential or touristic developments.

With a relatively flat topography, the land offers easy construction conditions, helping to reduce overall development costs.

It benefits from an excellent east-facing orientation, ensuring great natural light and open views, highly valued features in the market.

Currently, the plot does not yet have direct access, as there is an intermediate property. However, there is already a municipal plan to create a road access to the land, which may be executed either by the Municipality or by the developer of the project, ensuring future accessibility and strong investment potential.

Building Potential

Located in a medium-density zone, the plot allows:

Detached, semi-detached, or townhouse developments
Small apartment buildings
Tourism projects, with potential increase of building indexes

Key urban parameters:

Gross building index: 0.6

Net building index: 0.8

Site coverage index: 0.50

Allows construction of ground floor plus 2 upper floors, with the possibility of up to 3 floors above the ground floor, subject to municipal approval

Maximum façade height: 9 meters

Location

Set in a quiet area, yet close to all services, amenities, and main accesses, offering a perfect balance between privacy and convenience.
