Omschrijving:	

In Ledenice, in a peaceful location in the hinterland of Novi Vinodolski, a building plot 724 m² with a project for the construction of a modern semi-detached house comprising two residential units, each with an area of 60 m², is offered for sale. Each residential unit has been designed as a functional and modern living space consisting of an open-plan living room with a kitchen and dining area, two bedrooms, a bathroom, as well as additional storage space with provisions for a washing machine and dryer. The living room provides direct access to a covered terrace of approximately 10 m² and the surrounding garden, creating a pleasant connection between the indoor and outdoor living areas. The two bedrooms, each measuring approximately 16 m², are designed with large glazed surfaces that provide plenty of natural light and beautiful views of the surrounding nature. The project includes high-quality finishes and equipment, including electric underfloor heating, PVC windows with triple glazing, premium ceramic tiles, and high-quality sanitary ware and fittings. A pitched roof and a total of three parking spaces are also planned. The peaceful surroundings, attractive architectural design, and possibility of constructing two separate residential units make this property an excellent opportunity for family living, a holiday home, or an investment in tourist rentals.
