Omschrijving:	

In one of the most desirable coastal locations of Southern Evia, just moments from the sea and surrounded by the natural beauty of Agia Paraskevi, Karystos, two exceptional independent luxury maisonettes are offered for sale within an exclusive boutique development.

Positioned on an elevated 660 sq.m. plot, the residences enjoy unobstructed views towards the sea, generous outdoor living areas, complete privacy, and their own private swimming pools, creating the perfect balance between modern comfort and Mediterranean lifestyle.

Located only 200–300 meters from the shoreline, the properties offer a rare opportunity to acquire a newly built residence in a rapidly emerging destination that combines authentic Greek island character with easy accessibility from Athens.

Designed across three levels, each maisonette has been carefully planned to maximize natural light, functionality, and the connection between indoor and outdoor living.

The ground floor features bright open-plan living, dining, and kitchen areas that flow directly onto spacious terraces and the pool area, creating an ideal environment for relaxation and entertaining.

The first floor accommodates the sleeping quarters, with large balconies offering beautiful sea views and abundant natural light throughout the day.

The basement level provides valuable additional space with exceptional flexibility, allowing future owners to create guest suites, a home cinema, gym, wellness area, wine cellar, playroom, storage facilities, or private parking according to their individual needs and lifestyle.

Each residence benefits from its own private swimming pool, landscaped outdoor spaces, sunbathing areas, spacious terraces, and the potential for outdoor dining and BBQ areas, perfectly suited for enjoying the Mediterranean climate.

The development is currently at an advanced construction stage. Premium materials and finishes have

already been selected and purchased, while buyers still retain the opportunity to personalize certain design elements and finishing details according to their preferences. Acquisition in its current construction phase is also available by separate agreement.
