Geplaatst:	25-08-2026
Omschrijving:	

A boutique collection of compact tropical pool villas a few minutes from the black-sand beaches of Bali's quieter north-west coast. Each villa is a two-storey design on its own plot, with a private plunge pool, a planted garden with a water feature, and a warm timber entrance opening to an efficient, light-filled living layout. Buyers choose between a 24-year and a 30-year leasehold, with a priority right to extend a further 20 years negotiated directly with the landowner. Units release in phases with completions running from December 2026 through March 2027, so pre-completion pricing locks in ahead of handover in a corridor where rice fields are steadily giving way to villa-grade demand. The land sits in a tourism (pink) zone, the only Bali zoning that legally permits short-term rental, keeping both holiday-let income and resale firmly on the table. One- and two-bedroom configurations are available, several with direct rice-field outlooks, all sharing a deep-well water supply and on-site car and bike parking.
