Omschrijving:	
New Golden Mile, Estepona East	

This four-bedroom villa in El Campanario understands the assignment from the outset: clean architecture, private outdoor living, and interiors designed around natural light rather than unnecessary statement pieces. Set across 403 m² on a 648 m² plot, the home combines sharp contemporary lines with warm textures, landscaped greenery, and a layout that moves effortlessly between indoor and outdoor spaces. The private pool, rooftop solarium, generous terraces, and two-car garage complete a property designed for practical luxury.

The main living space is where the house shifts away from the expected. Full-height sliding glass doors open completely onto the terraces, creating one uninterrupted living environment framed by mature tropical planting. Timber ceilings, oversized proportions, natural stone finishes, and soft neutral tones give the interiors warmth without losing the contemporary edge. The kitchen is equally considered: functional, refined, and directly connected to outdoor dining and entertaining areas. Every room feels intentional rather than decorative.

All four bedrooms are en-suite, each designed with privacy, natural light, and terrace access in mind.
