Omschrijving:
Located in Bucuresti.

We are pleased to present for sale a modern 2-room apartment located in the Baneasa – Sisesti area, in a residential building completed in 2018.

The apartment is situated on the 2nd floor of a 5-storey building and features a fully detached layout, offering enhanced comfort and privacy.

The property has a total usable area of 74 sqm, including a generous 12 sqm balcony, and a total built area of 89 sqm.

The layout is practical and well organized, comprising a living room, bedroom, separate kitchen, bathroom and balcony. The balcony can be accessed directly from both the living room and the bedroom, providing additional comfort and functionality.

The living room has been divided exclusively through furniture arrangement into two distinct areas: a relaxation and TV area and a dedicated home office space. This configuration is particularly suitable for those working from home, without altering the apartment's original layout. Returning the room to its original configuration can be done very easily.

The apartment is offered fully furnished and equipped and is ready for immediate occupancy.

An additional advantage is the property's smart home features: both the air-conditioning units and the individual heating system can be remotely controlled and adjusted, providing enhanced comfort and energy efficiency.

Finishes and features include parquet flooring, ceramic floor and wall tiles, PVC window frames, security entrance door, individual heating system, air conditioning, and a separate, fully furnished and equipped

kitchen.

One underground parking space is included in the sale price.

There is also the option to purchase a second underground parking space separately.

With its generous size, fully detached layout, 12 sqm balcony accessible from both rooms, underground parking space and already arranged home office area, the property is an excellent option both as a private residence and as an investment.

Sale price: EUR 199,000

No VAT is added to the sale price.
