Plaats:	Tabanan
Geplaatst:	21-09-2026
Omschrijving:	

A substantial freehold opportunity in Bali's most promising interior region. This 2,850 sqm parcel sits in Penebel, Tabanan — an area drawing serious attention from developers, boutique operators, and long-term investors as buyers look beyond the saturated southern coast toward Bali's cooler, greener highlands. The land arrives with genuine added value: two existing buildings already standing on the property. Whether repurposed as accommodation, staff quarters, a site office, or a starting point for renovation,

these structures represent immediate utility and meaningful cost savings against an entirely bare block. Scale creates possibility. At 2,850 sqm, the plot comfortably accommodates a multi-villa development, a wellness or retreat centre, an agritourism venture, a boutique guesthouse, or a private family estate with generous surrounding gardens. Few parcels of this size remain available at this price point anywhere on the island. Location strengthens the case considerably. A local market sits nearby for daily essentials, while Bedugul and its famous lakes, temples, and highland climate lie within comfortable reach.

Ubud — Bali's cultural and wellness heartland — is equally accessible, connecting the property to established tourism flows without the density, traffic, or land costs of the town itself. Tabanan continues attracting infrastructure investment and development interest, with values climbing steadily as the region matures. Freehold title offers the strongest ownership structure available, providing permanence and full flexibility for resale, development, or generational holding.

Price at IDR 300 Million/are
Total Price: IDR 8,550,000,000
