Omschrijving:

**FOR SALE IN FONTE ARCADEA, LAND FOR LUXURY RESIDENTIAL CONSTRUCTION.
READY TO BUILD!**

Located in Fonte Arcada, this construction land benefits from exceptional sun exposure throughout the day, creating ideal conditions for a bright, efficient and well-ventilated housing project. Just minutes from the centre of Póvoa de Lanhoso, the plot is situated in a quiet residential area with excellent access and stunning views over the surrounding landscape. This is the perfect opportunity to build your dream home or invest in a high-value project.

AREA HIGHLIGHTS & CONSTRUCTION POTENTIAL

The land features an excellent geometric and topographic configuration, allowing you to maximise natural light in all rooms. The official urban planning parameters are very generous:

- * Total Land Area: 602.60 m²
- * Building Footprint Area: 140.00 m²
- * Gross Construction Area: 420.00 m² (including 140.00 m² of dependent gross area for garages/annexes)

PERMITTED FLOORS CALCULATION

Based on the ratio between Gross Construction Area (420 m²) and Building Footprint (140 m²), the land legally permits construction of 3 floors (420 / 140 = 3).

This translates into excellent architectural flexibility, allowing, for example, an intelligent distribution such as:

1. Floor 0 (Basement/Utility): Spacious garage, laundry room and storage (dependent area).
2. Floor 1 (Ground Floor): Open-plan social area, kitchen, guest bathroom and direct access to garden.
3. Floor 2 (First Floor): Private area with 3 to 4 bedrooms (including suites) and balconies with panoramic views.

INFRASTRUCTURE ALREADY AVAILABLE

Beyond saving time on bureaucracy, the plot preparation significantly reduces initial construction costs. The land has direct connections in the immediate surroundings to:

- * Electrical network
- * Drinking water network
- * Wastewater network (sewerage)
- * Rainwater network
