Omschrijving:	

An attractive development opportunity on the Costa del Sol, in the province of Málaga, in an established residential and leisure area surrounded by greenery and close to a golf course. The location combines a natural setting with convenient access to the coast and the main infrastructure of the region. The beach is approximately 3 km away, while Málaga Airport is around 35 km from the property. The land is offered with a basic development project for a luxury residential complex, with a total buildable area of approximately 7.000 m² and a planned development of 60 apartments distributed across three contemporary residential blocks. The standard apartments are planned with approximately 110 m² of interior space plus 20 m² terraces, while the penthouses offer approximately 130 m² of interior space, larger terraces and attractive sea views. Each residence is designed with two bedrooms and two bathrooms. The development concept also includes underground parking, a gym, spa, large central swimming pool and spacious landscaped green areas, creating the basis for a high-quality residential complex designed for the Costa del Sol lifestyle. * The photo does not correspond to reality.
