ABOUT THE AREA

Halkidiki is a region in northern Greece known for its jutting peninsulas, which feature Mediterranean forests that give way to sandy beaches in sheltered bays. Kassandra, the westernmost peninsula, is the most developed, offering modern resorts and nightclubs. The region's notable archaeological sites include Stageira, Aristotle's birthplace, and Olynthus, known for its well-preserved mosaic floors.

'There is nothing like Halkidiki', say the northern Greeks and they know what they're talking about. Get ready to succumb to the charms of its three beautiful peninsulas – Kassandra, Sithonia and the third finger, comprising the seaside town of Ouranoupoli and the famous monastic state of Mount Athos.

Turquoise water, dense pine forests, dreamy hotels, small coves with fish tavernas and cafes, beach bars, archaeological sites, traditional villages, and the famous Petralona Cave in Kassandra: a microcosm of miracles. Made to be explored with all your senses.

Kassandra

The westernmost peninsula, called Kassandra, is the most popular of the three. Visitors tend to make a beeline for the town of Hanioti, with its village square and evening markets. Then there's sophisticated Sani, a purpose-built resort that's fronted by a Blue Flag beach and a yacht-filled marina. Finally, you've got Kalithea, which is your best bet if you're looking for a lively after-hours scene.

Sithonia

The next peninsula over, called Sithonia, is wilder and more rugged than Kassandra. As a result, tiny fishing villages and sprawling pine forests are more common than holiday resorts. People tend to head here to enjoy the great outdoors. Secluded coves and virgin bays set the scene along the coast, and myriad walking trails weave their way inland.

Mount Athos

Mount Athos is the easternmost of Halkidiki's peninsulas. This monastic republic is strictly off limits to visitors, but you can get a good look at the place with a boat trip around its shores.
