The golden Arenal beach is just a short drive away, here again you have lots of restaurants beach front and also activity centers where you can do scuba diving, rent a jet ski, kayaks, scooters and much more. Summer months activities are really entertaining and J avea does lots of things for the young ones as well.

According to a scientific study carried out in the 90s, J avea was considered to be the first best

microclimate in the world, followed by Rio de Janeiro and to be honest you can enjoy a great temperature all year round with an average that ranges from around 18°C.

This goes to show as Jãvea is chosen by many to spend their holidays here and many to live all year round, which means not like a lot of coastal areas it's always full of life even in the winter months.

Also Jãvea itself has gained in popularity in recent years as a family friendly holiday destination that is the closest mainland point to Ibiza, sharing similar standard of beaches, landscapes but without the sky high prices, budget tourism and of course is not on an island.
