Description:

Belori is a uniquely designed custom built home constructed to high standards with a selective choice of fine finishes. Set within landscaped gardens the villa commands sea views due to its impressive ridge top position. A contemporary interior design was utilised, for fresh living spaces complimented by marble floors and high ceilings with floor to ceiling windows.

This uniquely designed 5 bedroom, 5 bathroom villa has been custom built to the highest standards – the end result of careful planning along with a selective choice of the finest finishes and materials is a spectacular 6,500 sq. ft. villa with sea views set within beautifully landscaped gardens.

The villa commands an impressive position on a ridge in the heart of rural Barbados and benefits from views of the rolling countryside and the sea views beyond as well as a refreshing Easterly breeze.

The contemporary design allows for a fresh and original approach to the living space – marble floors, high ceilings, floor to ceiling windows and sliding doors come as standard. Bathrooms include step down showers. The upper floor is linked with a system of bridges and walkways – light, space and flow are the main influences of the design – each bedroom has its own private outside area, either a courtyard or terrace and entertaining space and family social areas are featured throughout the home.
