ABOUT THE AREA

Almese is a comune in the Metropolitan City of Turin in the Italian region Piedmont, located in the lower Val di Susa, about 27 kilometres west of Turin. Easy to reach, the village of Almese stands on the slopes of the Prealps and Mount Musinè, a real strategic position which is crossed by the famous itinerary that leads to the Colle del Lys, much loved and frequented by Italian and foreign cyclists and motorcyclists. Today it is a flourishing municipality, rich in mainly medieval history, testified by the splendid Church of Santa Maria and the Ricetto Tower of San Mauro dating back to the eleventh century.

Turin is the capital city of Piedmont in northern Italy, known for its refined architecture and cuisine. The Alps rise to the northwest of the city. Stately baroque buildings and old cafes line Turin's boulevards and grand squares such as Piazza Castello and Piazza San Carlo. Nearby is the soaring spire of the Mole Antonelliana, a 19th-century tower housing the interactive National Cinema Museum.
