At the same time, it is the creation of a small private enclave. It's a perfect example is to buy a small piece of paradise at competitive prices.

The residential area will have in total of 12 apartments built on 1.680 square meters. The common area features a swimming pool, a covered area with a bathroom, and parking spaces. Distributed with 2 blocks of 3 levels and roof-top, with 6 apartments each, 3 types of customizable apartments.

The residential will have 4 penthouses with a private roof-top with a jacuzzi and 4 condos with a private garden, with the possibility of completing them with a private jacuzzi as well. Starting at $119.554 for the one-bedroom unit with 80 square meters.

The project is inspired by nature and includes gardens and private planters that create the atmosphere of a tropical garden that surrounds the apartment. Being surrounded by greenery creates privacy that is often lost in classic residential areas.
