This villa consists of 3 floors, and on the ground floor it has a patio, a closed garage for about 3 cars, a furnished office, a room for storage or other use, 1 support bathroom, technical area for solar panels, photovoltaic and swimming pool.

On the 1st floor there is a very large living room with terrace and good sun exposure, modern kitchen with good fully equipped areas, closed and equipped laundry, it also has a patio all around the villa, swimming pool with deck and 1 toilet.

On the 2nd floor, there is a Master Suite with 1 bathroom, closet, built-in closets and a balcony. On this same floor consists of 1 more large bedroom with built-in closet and balcony, you will also find a third bedroom with built-in closet with window and 1 bathroom to support this floor.

We highlight the quality and comfort of this house, with the installation of 2 types of Panels, Solar and Photovoltaic, which turns out to be the added value because it is practically autonomous from electricity, since it still supplies electricity to the electricity grid.
