Description:

Privileged location strategically positions it in an area of growth and surplus value in Playa del Carmen. With access to communication channels, shopping centers and points of interest, it has the most important services in the area.

It is the result of exploring alternatives to create unique environments. With spaces focused on offering experiences, its contemporary design architecture and technology offer the perfect union of aesthetics and functionality.

ADVANTAGE

The advantages of having a department with easy access to development through several routes in different directions. Short transfers main centers of entertainment and services, security and tranquility in the area. The growth in the area offers uniformity in projects. A 35% surplus value is projected against the final sale price.

Interiors

Its architecture offers spaces that speak for themselves, defining a line of contemporary design that frames in their details the lifestyle of those who inhabit the place. With all the necessary comforts, it has details that inspire.

Design

The design that surrounds each of the spaces offers an experience of sophistication. Its finishes create unique environments, offering a new alternative that combines functionality and aesthetics.

Economy

Its intelligent and functional design allows to minimize costs by incorporating A / AC inverter, as well as boiler and gas stove, saving month by month in the consumption of such services.
