Description:

Be delighted while reading the design description of Aurora: a splendidly designed house that has been perfectly placed in a strategic location where the ocean view is breathtaking and unique. The ground floor is carefully planned enabling common areas to be integrated for socializing as they comprise private sunbathing pool and terrace. The interior spaces are maximized by the open-plan design style, incorporating the kitchen and the living room opening onto an outside decked area, with a fireplace and outdoor dining area equipped with a BBQ and bar.

On the first floor, which can be accessed by an elevator or stairs, the master bedroom is meticulously projected to provide comfort. With an en-suite bathroom that integrates floor-to-ceiling windows including a view of the landscaped gardens and the oceans. The interior of the house is composed of the highest quality natural materials to create a modern home, pleasing even the most perspicacious public. It also consists of one additional double room and one polyvalent room that can be used for study or hobbycraft. These two rooms share a fully equipped bathroom. The first floor has lift access facilities and direct access to the house entrance if required.

The second floor is composed of spectacular features that classify this property as the only one in Madeira built in this contemporaneity. It boasts an outdoor cinema, an infinity pool with immersion sun

loungers, a skywalk and dramatic cliff gardens with a hammock, a coffee and tea lounge along with a fireplace and a recessed seating lounge with BBQ. Be amazed by the spectacular sunrises and sunsets every day over the magnificent Atlantic.
