For Sale: An Exceptional Maison de Maître in Avesnelles, France

Discover a truly unique and charming property in the heart of Avesnelles, France: a magnificent Maison

de Maître dating back to circa 1900. This 'Maison Atypique' or unique house, constructed of beautiful brick, offers a perfect blend of historic elegance and modern convenience. With 180 square meters of living space spread across three levels, this home provides an abundance of room for a large family or those seeking a flexible and expansive living environment. It is a home with character and a story, waiting for its next chapter to be written.

The property is a haven of tranquility and beauty, beginning with its entrance, a charming alley lined with six cherry trees. The front of the house is framed by a majestic 100-year-old pine tree, landscaped gardens, and inviting terraces. The gardens are a key feature of this home, providing a multitude of spaces for outdoor living, from the terraced areas to the pond and the serene space under a 400-year-old weeping willow tree. The property also boasts a vegetable garden with grapevines and a variety of fruit trees, including apple, plum, fig, and pear, perfect for those who enjoy fresh produce.

Elegant and Versatile Interior

The interior of this home is a testament to its rich history, with original features that have been lovingly preserved. The spacious lounge, measuring 20 square meters, is a highlight, featuring a fireplace, original cornices, and a rosette. The stunning Paris parquet flooring adds a touch of classic French elegance. Double exposure offers a view of the front garden with its magnolia tree and terrace, filling the room with natural light.

The formal dining room, at 15 square meters, is equally impressive with its pitch pine flooring, marble fireplace, cornices, and rosette, and a view of the beautifully landscaped garden. A second dining/TV room, next to the kitchen, features a charming marble fireplace, original tiled floor, and timber ceilings, offering a cozy and intimate space. The kitchen itself is designed in an 'industriel' style with marble floors, providing a chic and functional space with a view of the vegetable garden.

Bedrooms and Bathrooms with Character

The house offers a total of six bedrooms, which can be adapted to various uses, such as a bureau, games room, or media room. Three of the bedrooms feature elegant marble fireplaces, adding a touch of classic sophistication. The bedrooms range in size from 9 to 25 square meters, offering a variety of options.

A standout feature is the 20-square-meter 'parents' retreat,' which feels like a treehouse with its private balcony overlooking the park and garden. This sanctuary includes a separate toilet and washbasin, and a clawfoot bath right in the bedroom, creating a unique and luxurious space. A four-square-meter bathroom with an Italian shower, cast-iron bath, and antique washbasin is a testament to the home's blend of classic and modern styles. A separate toilet and laundry room complete the ground floor's amenities.

Potential and Modern Upgrades

The third level of the house is an attic covering 60 square meters, which contains three of the six bedrooms. This space is ideal for completing and customizing, with the potential to add a bathroom, a bureau, a games room, or a media room. The attic has original timber flooring, Velux windows, and insulated timber ceilings, and is heated by a granulés compressed wood heater. While the electrical

system has been redone throughout the house, the attic rooms require completion, offering a fantastic opportunity for the new owner to add value and personalize the space.

The property has been updated with modern conveniences, including a central heating system connected to an air-to-water pump and a solar panel for hot water. An extractor fan system in the kitchen, bathroom, and toilet ensures good ventilation. The home also has two large in-ground water reserves with a capacity of over 5000 liters, perfect for watering the garden or for use in the toilets or washing machine. A 25-square-meter garage and a tool/wood shed provide ample storage.
