Description:

Luxury beachfront apartments in an exclusive residential complex. If you are looking for a luxury home with spectacular views, this residential project is unique. What attracts the most is that it is a very exclusive complex, with only 8 apartments, all designed with the highest quality and energy efficiency. The villas feature independent entrances, private garages, and internal elevators, ensuring privacy and comfort, in addition to common garages. All the homes include a basement lounge ideal for a gym, home cinema, or office, which is highly valued for today's lifestyle.

As for the quality, it is very interesting that the climate control system is fully automated, with underfloor heating through aerothermal energy, air conditioning through ducts, and mechanical doubleflow ventilation ensuring clean air and comfort throughout the year.

Another key point is the private pool in each home, equipped with RGB LED lighting and a stylish outdoor shower. Additionally, there is a large communal pool with changing rooms, landscaped areas, and spaces for sports and relaxation.

The designer kitchen with a central island, fully equipped with state-of-the-art appliances, is another aspect sought after in a luxury home. Premium finishes are also valued, such as large format porcelain floors, designer bathrooms with NOKEN fixtures, and outer carpentry made of aluminum with safety glass and solar control.

It is very relevant that all homes include at least two parking spaces, one with a charging station for electric cars, and the possibility to customize the KNX home automation, outdoor gardens, or even equip the basement as a fitness room or private cinema.

In summary, this residential complex offers everything you are looking for: exclusivity, luxury, energy efficiency, advanced home automation, a private pool, and sea views. Definitely a unique opportunity to invest in a luxury home on the Mediterranean coast.

We have apartments starting from €1,200,000 on the first level to €1,500,000 on the fourth level. For more information about this complex, please feel free to contact our team, who will provide you with all the details.
