Orpro Development

The company was born in 1993 27 years ago in the metallurgical sector in the elaboration of reticulated structures for sheds little by little construction items were incorporated until achieving a comprehensive solution for the large clientele that was being incorporated into the portfolio and your demands. The first decade was one of growth working for clients who were diversifying the company's tasks due to the seriousness and responsibility of the work adding the hiring of quality professional personnel who were key to the completion of the works in a timely manner and thus win in each one of them more than a client a friend fundamental premise of the company until today.

After that first stage more important works came such as the construction of 3 secondary school buildings the remodeling and construction of a grandstand in the Sarmiento de Junín football stadium the construction of a Biodiesel production plant in the industrial park the expansion and remodeling of the Volkswagen Automotive Company the construction of 29 buildings with 724 condos delivered important single family homes weekend houses and much more work.

Over time new business models emerged where the development of the enterprises became our responsibility with the contribution of private investors as allies we can mention the realization of private neighborhoods with a total of 826 land sold and 383 turnkey homes built. in hand in the same as well as all the infrastructure works for its urbanization public lighting perimeter fence laying of running water

sewers and electricity paved internal streets etc.

Today the company has its own offices and storage sheds in the industrial park a division of concrete swimming pools numerous developments in progress and continues to expand constantly with the responsibility commitment and efficiency of the beginning of the activity.
