A Rare Investment Portfolio: A Historic Estate and Expansive Land Plot in Negrar di Verona

Presenting an unparalleled opportunity to acquire a unique estate of properties in the heart of the Valpolicella wine-producing region, in the picturesque town of Negrar di Verona. This offering is a truly exceptional proposition, combining a magnificent historic house with significant income potential and an expansive land plot primed for a substantial business development. This dual-asset portfolio is a dream for a visionary investor or developer seeking to establish a foothold in one of Italy's most desirable and economically vibrant regions.

Property 1: The Historic House with Three Distinct Dwellings – 370,000 euros

Nestled within the stunning, sun-drenched landscape of Negrar di Verona, this magnificent property offers a rare blend of historical charm and modern versatility. The main residence is a captivating fusion of a charming, two-hundred-year-old cottage and a beautifully converted stone barn, with an additional apartment spanning the top of both structures. This clever configuration creates three independent dwellings that can comfortably accommodate between 12 and 14 people, making it an ideal family compound or, with some minor upgrades, a highly profitable holiday rental business.

The original cottage exudes a rustic, timeless appeal. Its ground floor features a cozy kitchen and a combined living and dining room, centered around a charming wood-burning stove that provides warmth and ambiance on cooler evenings. A staircase leads to the first floor, which is home to a spacious bedroom and a large, well-appointed bathroom. This dwelling is perfect for a couple or a small family, offering a private and intimate living space.

The large attached house, a masterfully converted barn, provides a generous and open living environment. The main entrance leads into a large kitchen and dining room, a perfect space for large gatherings and family meals, complemented by a small bathroom with a shower. This area flows seamlessly into a good-sized living room, which also features a cozy wood-burning stove. A grand staircase ascends to the first floor, where the private quarters are located. Here, you'll find a luxurious master bedroom with its own ensuite bathroom, another spacious bedroom also with an ensuite, and a third, slightly smaller bedroom. The basement is a key feature, offering a substantial amount of space with full-width access and an outlook to the rear of the property, ideal for storage, a wine cellar, or a future leisure space.

The third dwelling is the top-floor apartment, a self-contained unit with its own private access. It is reached via a large, external stone staircase that opens into a full-length, enclosed portico—a wonderful space for a sunroom or a quiet reading area. From the hallway, the apartment opens up to a large living room, a kitchen, a bathroom, and two large bedrooms, including a master bedroom with an ensuite. The independent nature of this apartment makes it a perfect short-term rental unit or a private retreat for guests.

The property's location is truly unparalleled. It is immersed in the heart of the Valpolicella wine region, surrounded by vineyards and olive groves, with spectacular, panoramic views that stretch all the way to Lake Garda in the distance. This visual appeal is a significant draw for tourists and a key factor in maximizing rental returns. This versatile property offers a unique opportunity to create a stunning family home or to capitalize on the booming tourism industry with a thriving rental business.

Property 2: A Landmark Development Opportunity – 275,000 euros

Just above the charming town of Negrar lies a rare and exceptional investment opportunity: a vast 35,000 square meter (approximately 8.6 acres) land plot. Comprising a mix of lush grassland and mature woodland, this elevated plot offers an unrivaled position and breathtaking, unobstructed views of the Valpolicella valley and the sparkling waters of Lake Garda in the distance.

The true value of this land lies in its pre-existing zoning and development potential. Previously designated as D3 zoning, a classification for recreational, camping, and sports use, the local authorities had already indicated their consent for a significant project. This included the construction of two large custodial houses and up to 18 traditionally built bungalows, utilizing local stone and timber to create an eco-friendly and aesthetically pleasing resort. The stunning natural beauty of the surrounding woodland, combined with the spectacular lake views, makes this a unique and highly desirable location for a business development.

This is an ideal opportunity for a developer or investor seeking to create a high-end tourist retreat or a private residential complex. The previous planning discussions with local authorities provide a clear and encouraging path forward, reducing the typical risks associated with land development. Prospective buyers can work with a local geometra or architect to finalize the zoning and planning details and bring this vision to life. The mixed woodland not only adds to the property's beauty but also offers a natural buffer, ensuring privacy and a genuine sense of seclusion. With access points from both the north and south, the plot is both secluded and easily reachable.

This combined portfolio—a charming, versatile home with existing rental potential and an expansive land plot with clear, large-scale development approval—presents a truly unique and strategic investment. Both properties are positioned in a prime location in one of Italy's most prestigious wine regions, guaranteeing a strong appeal to both lifestyle buyers and business developers. The ability to generate immediate income from the house while planning the larger-scale project on the land plot offers a flexible and profitable investment strategy.
