Description:

Ahimsa is a macro project of 55 lots for sale located near the sea in the magical area of Tulum born from Dharma's sales success. Lots of land that will allow you to build your home with no strings attached in total creative freedom from planning to execution and list of amenities.

AHIMSA SELVAZAMA was born from the success of Mondo and Dharma projects located within the prestigious community of SELVAZAMA. AHIMSA is a philosophical concept that advocates non violence and respect for life. Life expands or contracts in proportion to your desire to live it.

LOCATION

Ahimsa Tulum is located within the Great Selvazama Project 300 meters from the famous Green School adjacent to world class projects and is the closest residential area to the beach. It is the best LOCATION in the history of Tulum.

ALDEA ZAMA

Thanks to the success generated by Aldea Zama SELVAZAMA was born hand in hand with the planned sustainable development of TULUM. Located in one of the most privileged areas of the Riviera Maya this new destination promises to stand out as a place of rest with an organic and relaxed atmosphere away from the hotel circuit and with an architectural design that blends in with the jungle.

The projects at Selvazama represent three areas that promote the social integration of the community Tulum Centro a space for cultural activities with an amphitheater surrounded by tropical trees Parque del Arte with a total area of 135000 m2 of pure jungle and Centro Holistico a sanctuary to focus body mind and spirit.

GREEN SCHOOL

Inside Selvazama comes one of the most important schools in the world focused on values and education around the community. The purpose is to reflect the natural elements of the region that nurture the balance of this beautiful magical and unique place in the world. Green School is a project of educational entrepreneurs John and Cynthia Hardy who opened the first center of its kind in Bali in 2008.

The headquarters will have a program ranging from elementary to high school based on learning related to sustainability with the aim of generating the next generation of environmental leaders regardless of the career or specialization they choose. Therefore Selvazama not only seeks to impact tourism but also those who intend to be part of a community that will eventually become an agent of change for the country's beaches and destinations.

At Ahimsa Tulum we believe that everyone should have the opportunity to find that connection with the cosmos. The celestial bodies are spelling your name answer the call and discover all that you are destined to experience in Tulum ACT WITH YOUR HEART THE UNIVERSE WILL TAKE CARE OF THE REST

Energy flows like water creating channels that connect our own light with that of the Earth and invite us to form bonds with it that is why we give so much importance to the place where we live because the earth is more than earth it is a piece of the universe where you can form your own home.
