Description:

Rustic land with 23 hectares with mostly flat area, offering stunning views over the Bravura-Bensafrim Dam.

The Bravura Dam, located in the parish of Bensafrim, in the municipality of Lagos, is one of the main water reservoirs in the region and a place appreciated for its tranquility and natural beauty. Surrounded by green landscapes and hiking trails, it is a point of interest for those looking for contact with nature, outdoor activities or simply serene views over the reservoir.

Relevant ecological features:

The combination of fresh water, reed beds and agricultural slopes creates an ecological mosaic that supports high diversity.

The dam works as a point of concentration of fauna in periods of drought, common in the interior Algarve.

The presence of exotic species is typical of reservoirs in the south of the country, with a variable impact on local biodiversity.

This rustic land already has a favorable opinion from the Municipality of Lagos for the construction of a Hotel or Rural Tourism enterprise, presenting an excellent potential for investment in the tourism sector.

Don't miss the opportunity to own this unique piece of paradise.

Schedule a visit to discover the potential of this treasure in Lagos.

Complementary services: We accompany the entire purchase process, including support in obtaining the best exchange rates, opening a bank account, credit documentation, carrying out improvement works and much more.
