Property for: Sale
Price: USD 178,079.85

Location

Country: United Kingdom
Posted: Dec 02, 2025

Description:

Winner of the DOT Property Awards 2025 for Best Sustainable Residential Development in Phuket, this project marks a revolutionary step in the island's real estate landscape as Phuket's first single-use-plastic-free condominium, setting a new benchmark for sustainable and smart living. Officially breaking ground in early 2025, it is strategically located in the cosmopolitan and rapidly growing Bang Tao area, renowned for its pristine beaches, upscale resorts, and thriving expatriate and tourist communities. The development combines British construction standards with innovative, eco-friendly design, including solar power generation, rainwater harvesting, and energy-efficient features.

With only 85 thoughtfully designed units ranging from studios to two-bedroom condominiums, the project offers residents a fully managed, hotel-style living experience, complete with amenities such as a 25-metre rooftop pool, state-of-the-art gym, wellness spa, co-working spaces, and a kids' club. Its unique 70/30 rental pool programme delivers projected annual rental yields of around 11%, supported by Phuket's strong tourism demand and thriving expatriate market.

Project Highlights

Freehold and leasehold options available

Rental Pool:

70/30 revenue share, professionally managed with projected~**11% annual ROI**

Programme:

Under construction

Completion:

December 2026

Investment Model

The investment model for this development combines the advantages of off-plan pricing with the security of a professionally managed rental programme. By partnering with an experienced hospitality operations team, buyers gain access to a lower entry price while also benefiting from projected capital growth of up to**25%** upon completion.

Units participate in a transparent **70/30 rental pool**, grouped with similar unit types to ensure fairness and consistent income distribution. Rental returns are projected at approximately **11% annually**, with income paid out every six months. All operational elements—including marketing, guest check-in, housekeeping, and maintenance—are fully managed on behalf of owners.

For added transparency, owners receive access to a dedicated app that provides real-time insights into occupancy levels, rental performance, and availability for personal stays.

With a limited number of units, investors benefit from increased privacy, strong rental demand, and enhanced long-term value, making this project a compelling investment opportunity.
