Description:

Located in Almancil, this property offers a well-balanced opportunity for both private buyers and investors, set on a plot of just over 4,000 m<sup>2</sup> within walking distance of cafés, supermarkets, restaurants, and local services. The land includes an existing house of approximately 62 m<sup>2</sup> and benefits from an approved project, allowing a clear and efficient path towards development.

The approved project provides for the construction of a 200 m<sup>2</sup> villa comprising three bedrooms, a garage, and a swimming pool. There is also scope to revise the project and increase the construction area up to 300 m<sup>2</sup>, subject to licensing, offering flexibility to adjust the layout, scale, or specification to suit market demand or personal requirements.

From an infrastructure perspective, the property is well prepared, featuring a licensed borehole with a depth of 150 metres, a water tank, and an irrigation system covering the entire plot. The land is further enhanced by a variety of mature trees, creating a natural setting that supports both immediate enjoyment and long-term value.

With its generous plot size, approved construction parameters, water infrastructure, and central Almancil
