Description:

In the heart of Saint-Thibery, discover this authentic character-filled winegrower's house offering exceptional potential.

Behind its charming facade lies a rare property of 279 sqm of living space, where the authenticity of period features meets an ambitious and flexible project, ideal both as a large family home or a high-quality rental investment.

A majestic and functional ground floor

From the moment you enter, the tone is set:

Spectacular entrance hall enhanced by beautiful cement tiles

Grand original staircase with undeniable character

Approx. 100 sqm garage, ideal for multiple vehicles or a professional project

Courtyard, small garden and outbuilding, offering valuable outdoor spaces in the heart of the village

First floor: charm and generous volumes (118 sqm - nearly completed)

This level immediately captivates with its warm atmosphere and preserved authenticity:

Beautiful, light-filled living and dining area

Kitchen opening onto a 40 sqm terrace, a real asset for outdoor living, with direct access down to the garden

Master suite with shower room

One additional bedroom, bathroom and separate WC

Exposed beams, terracotta tiles and period flooring throughout

Only a few finishing touches remain, but this floor can be quickly made fully habitable and already offers a high-quality standard.

Second floor: a high-potential project

The owners planned the creation of two Type 3 apartments, each of approximately 60 sqm:

Living areas with kitchen

Two bedrooms per apartment

Shower room and WC

Works remain to be completed; however, all materials (kitchens, sanitary fittings, etc.) are already on site, a significant advantage for completing the project without major additional costs.

A rare opportunity

Potential division into three apartments (main residence plus rental units, or full investment project)

Large family home full of character, with outdoor spaces and generous volumes

Sought-after location in Saint-Thibery, a lively and authentic village

Period charm, generous surfaces and strong value-enhancement potential
