Description:

5-Story Building/House with Open Views and Huge Potential — Covilhã

I present to you a rare opportunity in the upper area of Covilhã, next to the main access road to Serra da Estrela, where tranquility, views, and proximity to the city center come together in a single property.

This is a house with a solid and well-maintained building structure, with 688 m² of gross area, distributed over 5 floors and with several independent units, ideal for those who wish to combine housing, comfort, and profitability.

On the lower floor (basement), the property has two independent 2-bedroom units: one already improved and the other unfinished, currently used as storage, but with excellent potential to be transformed into another house. In the basement, we find a large garage with a bathroom and pantry, allowing for parking, storage, or a support area.

The ground floor and first floor are occupied by a three-bedroom duplex apartment, with generous areas, plenty of natural light, and balconies with panoramic views. On the ground floor, there is a hall, kitchen, living room, pantry, office, WC, and three balconies; on the first floor, three bedrooms, a bathroom, and three more balconies. At the top, an attic with access to a panoramic terrace offers multiple possibilities for use. The surrounding patio allows for the creation of a pleasant leisure space, garden, or vegetable patch.

Designed for comfort and efficiency, the property is equipped with 8 solar panels (5 kW) for self-consumption and a 200 L water heater, contributing to energy savings and greater sustainability.

The location is one of its greatest assets: an elevated, quiet area with excellent sun exposure, open views of the Serra da Estrela mountain range, the city, and the Cova da Beira region, while also being close to shops, services, and access routes.

Thanks to its organization and size, this property is perfect for those seeking a primary residence with additional income, an investment for rental income, short-term rentals, or rehabilitation for future appreciation. A versatile asset with features difficult to find in the local market.
