Description:

Casa Grande - A Characterful Home in the Heart of Olvera

Casa Grande is set on one of our favourite streets, right in the historic heart of Olvera's oldest quarter. From the moment you arrive, the property makes an impression with its large, imposing entrance and a beautifully handcrafted, traditional wooden door that leads you into the ground floor.

Inside, the house opens into a central salon that forms the heart of the home. Off this room you'll find the master bedroom, while another doorway leads to three additional bedrooms. A hallway continues through to the kitchen, complete with what must be one of the largest pantries you'll ever see - perfect for storage or for those who love to cook and entertain.

A glass patio door opens onto a spacious patio area. At the far end of the patio there is a washroom and a separate door leading to the bathroom. Also accessed from the patio is an enormous storeroom, which offers fantastic potential. It could easily be converted into additional living space or opened up to the patio to create a wonderful covered outdoor living room.

A marble staircase leads up to the first floor, where you'll find a huge front bedroom, a central room, and another very large room to the rear. With some vision, the roof of the rear room could be removed to

create a generous terrace. The current terrace is small, but extending it in this way would allow for spectacular sunset views and beautiful vistas towards the church and castle.

Casa Grande is a solid, well-built home that has been lovingly maintained and remains in excellent condition throughout — a wonderful opportunity to own a spacious traditional property in one of Olvera's most charming streets.
