Description:

An attractive commercial property with a total net usable area of 255 m², situated on a spacious rectangular plot measuring 73.18 m in width and 45.86 m in depth, with a total area of 3363 m². The entire parcel is enclosed with a wire fence, ensuring privacy and security, while its strategic location provides excellent traffic connectivity. The property allows easy access for personal vehicles as well as all types of delivery and freight transport, including trucks, vans, and buses, making it ideal for various business activities. One of the key advantages of this property is its gas connection, with a pre-agreed business cooperation contract that guarantees the future owner free heating throughout the entire year. This exclusive benefit significantly reduces operating costs, making it an exceptional opportunity for entrepreneurs seeking an efficient and cost-effective business solution. Thanks to its high-traffic location, rectangular parcel shape, and large land area, there is the possibility of additional construction, such as a larger warehouse or production facility, maximizing the potential of the property. This commercial space represents an excellent investment for companies looking to expand their operations in one of Đakovo's most promising industrial zones. For more information and to schedule a viewing, feel free to contact us!...
