ŠIBENIK, VODICE – Duplex with a pool and a permanent, open view

From the DUX offer we highlight!!!

There are properties that offer a view... and there are those that offer the certainty that this view will remain unquestioned in the long term. This is precisely one of the things that makes this house special.

Situated on an elevated location with an already built-up area in front, this modern duplex house offers an open view of the sea and the archipelago – without the risk of future construction that could disrupt it. Such a combination is a rarity on the market today and a long-term value that is difficult to replace.

Three carefully organized floors create a natural rhythm of life: mornings begin on a sunny terrace with a sea view, days take place by the pool and outdoor living, while evenings bring peace and sunsets that leave a strong impression.

With four bedrooms and a separate residential unit on the first floor, the property easily adapts to different lifestyles – whether you are looking for a family home, a holiday home or an investment that allows for a combination of private use and tourist rental.

Additional security for the purchase is provided by proper documentation, a use permit and the possibility of financing through a loan, while the fact that the seller is a legal entity represents a significant financial advantage - the buyer does not pay real estate tax.

In the current offer of Vodice, such a combination of unquestionable views, quality new construction and secure purchase conditions is rarely found, which is why such properties quickly find their buyer.
