Nestled in the established and highly sought-after suburb of Halali, Durbanville, this extraordinary freehold residence offers far more than simply a home—it delivers a lifestyle of security, tranquility, and effortless luxury. Perfectly positioned against the peaceful, undulating farmlands of Groot Phesantekraal, the property beautifully captures the look and feel of an exclusive country estate while remaining remarkably close to every modern city convenience.

This architectural double-storey family home features beautifully designed living spaces filled with rich character and an abundance of natural light throughout, creating an instantly warm, welcoming

atmosphere. It is a sanctuary where mornings begin with birdsong and breathtaking sunrise views over the distant Du Toitskloof Mountains, and where evenings unfold slowly around an open firepit beneath mature trees while owls call softly in the background.

Dual-Level Architectural Layout

The home's innovative layout has been inverted to maximize the stunning natural vistas and create distinct zones for both lively entertainment and quiet privacy.

The First-Floor Living Sanctuary

The upper level forms the true heart of the daily home, framed by panoramic windows that celebrate the surrounding agricultural landscape.

* The Farmhouse Kitchen: A beautifully designed culinary space equipped with a large central island, gas hob, two premium eye-level ovens, and a separate scullery and walk-in pantry for seamless convenience.

* The Entertainment Zones: An expansive open-plan family room and dining room flow seamlessly into an integrated indoor braai area. This entire space transitions through wide glass doors to a deep, covered outdoor entertainment patio.

* Accommodations: Two spacious, light-filled bedrooms and two bathrooms occupy this level, serving as a private family wing.

The Ground-Floor Independent Suite & Workspace

The lower level is designed for ultimate flexibility, catering perfectly to multi-generational living, guests, or corporate remote work.

* The Executive Home Office: A dedicated, spacious office setup offering a quiet environment separated from the main living zones.

* Guest Suite: A large third bedroom and a full third bathroom offer independence and absolute privacy.

* Direct Access Garaging: The level connects directly to the automated double garage, which features extra secure parking bays on the driveway.

An Entertainer's & Gardener's Dream

The outdoor spaces are meticulously engineered for year-round entertaining and eco-conscious, sustainable living. The grounds feature a built-in braai, a dedicated firepit zone, and a custom wood-fired pizza oven overlooking a magnificent solar-heated swimming pool.

For the gardening enthusiast, the terraced gardens include established, functional vegetable tunnels, mature trees, a wooden garden shed, and a practical utility area. The lush, established landscaping is entirely supported by an automated irrigation system connected to a massive \$10,500\text{-litre} water storage tank network, supplied by a shared borehole and a rainwater harvesting system.

State-of-the-Art Infrastructure & Security

Embracing modern self-sufficiency, the property is fully equipped to run independently of the municipal grid during disruptions. It boasts a high-end Victron 8kVA inverter system, paired with 15 kWh lithium battery storage and eight high-efficiency solar panels.

Personal security is handled by a comprehensive, multi-layered system, including an advanced perimeter alarm network fully linked to 24-hour local armed response, robust security gates, and perimeter electric fencing.
