It is ready to live in, with no need for intervention, and represents an interesting solution both as a main residence and as a vacation home or investment in one of the most sought-after areas of the lower Garda area.

The living area integrates living room, dining area and open kitchen in a harmonious and well-proportioned environment, enhanced by waxed oak parquet flooring that gives warmth and elegance. The furnishings, with clean lines and neutral tones, define elegant and contemporary environments, maintaining stylistic consistency and a strong sense of balance. The double exposure ensures natural light throughout the day and pleasant air circulation that contributes to indoor comfort even in the hottest months, with the support of the air conditioning system already installed.

The master bedroom is cozy and well organized, with mirrored closet that amplifies the perception of

The real added value is represented by the splendid panoramic solarium with open views of the lake and the Rock of Manerba. A private space, ideal for creating a relaxation area, an outdoor dining area or a barbecue corner. The terrace thus becomes a natural extension of the living area, a space to be lived with continuity throughout the day and capable of providing evocative views in every season.

The residence stands out for its large green areas perfectly maintained and for the large condominium swimming pool, articulated in an area dedicated to children and a deeper main pool, set in an orderly and well-administered context. The management costs are balanced in relation to the services offered. The property is completed by a convenient uncovered parking space, with the possibility of future coverage.
