ComprCasa is a Real Estate Network composed exclusively of members of APEMIP (Association of Real Estate Professionals and Companies of Portugal), a guarantee of professionalism and protection of the rights of consumers and users.

APEMIP occupies today a prominent position in the national real estate market, both for its continuous commitment to the affirmation of the role of the professional real estate agent in our society, and for the conquest of a greater share in the real estate transaction market, in line with the motto "Strengthen Mediation, Boost the Economy and Serve Consumers".

In turn, UCI (União de Créditos Imobiliários) is a financial institution specialized in granting housing loans to individuals through real estate professionals. UCI is the result of a joint venture between two of Europe's largest financial groups: the Santander Group and the BNP Paribas Group. From this union comes the commitment to help develop the real estate sector, providing the best tools that make it possible to boost the real estate business.

In this sense, it is perfectly logical that these two reference entities in the real estate sector (APEMIP and UCI) had, in June 2004, signed a collaboration agreement that gave rise to ComprCasa the Real Estate Network of Apemip.

ComprCasa started its commercial activity in August 2004 with the mission of "Being the Largest and Best National Real Estate Network, offering multiple services to real estate agents, based on the concept of common brand", allowing and reinforcing synergies that become added values for the market, namely for those who intend to sell, buy, rent or transfer a certain property.

Quality Policy ComprCasa Coimbra

ComprCasa Coimbra is committed to providing an excellent service to the various players in the real estate sector, providing the best tools that make it possible to enhance the real estate business. This business concept, although original, has traditional values in its genesis:

allowing it to achieve the objective of offering the customer a service of quality and added value.

The quality policy of the ComprarCasa Network provides a frame of reference by establishing and periodically reviewing the objectives of the Network and ensuring compliance with the requirements of the standard, Legislation, Regulation, Quality System implemented and other requirements applicable to the activity.
