Description:	

In a beautiful location in Aspe, we will be building this stylish modern villa, designed for those who appreciate peace, space and the Mediterranean way of life. Its contemporary architecture, natural materials and large windows create a timeless appearance while allowing the indoor and outdoor living areas to blend seamlessly together.

For this project, we have several carefully selected plots available, each situated in an attractive location with stunning views of the surrounding Spanish landscape. This gives you the opportunity to choose not only your future home, but also the plot and location that best suit your preferences.

One of the major advantages of building with us is that you will have the opportunity to participate in the design and personalise your future home. Depending on the stage of the project, the layout, materials, colours and various finishing details can be adapted to your personal taste and lifestyle. Rather than simply building a standard villa, our aim is to create a home that truly reflects your wishes.

The villa will be constructed in accordance with the latest building standards, with particular attention to quality, comfort and sustainability. We use high-quality materials and carefully selected finishes, ensuring a home that not only looks beautiful but also provides lasting comfort for many years to come.

The design is centred around the Mediterranean lifestyle. Large sliding glass doors bring plenty of natural

light into the home and provide direct access to the spacious terrace and swimming pool. The covered outdoor area is the perfect place to relax, enjoy long lunches or dinners with family and friends, and make the most of the wonderful Spanish climate throughout most of the year.

A modern villa, a beautiful plot, breathtaking views and the opportunity to personalise your new home. This is your chance to create a new-build villa in Aspe that is tailored to your wishes from the very beginning – your own place under the Spanish sun.
