Posted:	Sep 18, 2026

Description:

A building plot with a total area of 600 m², situated in a peaceful location in the centre of Garica on the island of Krk. A valid building permit has already been obtained for the planned property, allowing construction to begin without unnecessary delays. The plot is completely flat and fully enclosed by a concrete wall, with direct access from an asphalt road. All necessary utility connections have already been brought to the plot, making the development process easier and more efficient for the future owner. One of the key advantages of this property is that it is ready for construction. The valid building permit, available infrastructure, utility connections and direct road access allow the future owner to proceed with the project without lengthy administrative procedures or waiting for the necessary documentation. The peaceful location in the centre of the village, flat terrain and completed documentation make this property an attractive opportunity for both private buyers and investors looking for a building plot on the island of Krk that is ready for development. For further information, project documentation or to arrange a viewing, please feel free to contact us....

For this property contact our agent on telephone number +385 95 393 8327.
