Location

Country: Portugal
State/Region/Province: Faro
City: Tavira
Address: Tavira (Santa Maria e Santiago)
Posted: Sep 16, 2026

Description:

Set in an elevated position in Quinta da Barra, this striking contemporary villa enjoys a privileged outlook across Tavira towards the sea, while remaining within easy reach of the historic centre. Designed for year-round living, the property combines generous interior space, excellent privacy and strong energy performance with a layout that makes the most of its south-facing orientation. Large, glazed openings bring in abundant natural light and create an easy flow between the main rooms and the outdoor terraces.

The principal accommodation is arranged around a spacious living and dining area, with a wood-burning fireplace adding warmth and character. The adjoining kitchen has been finished to a high standard, with Silestone worktops, integrated appliances and a substantial wine cooler. On the same level are a dedicated office, a guest bedroom, a shower room and the main bedroom suite, which includes fitted storage and an elegant bathroom with a freestanding bath and walk-in shower. The upper floor adds further flexibility, with a third bedroom currently used as a second sitting room, complete with its own fireplace and an additional shower room.

Outdoor living is one of the property's main attractions. The roof terrace has been created as a private leisure space, with a heated swimming pool, Jacuzzi, shaded seating and wide-reaching views over Tavira

and the coastline. At garden level, the 686 m² plot is landscaped with mature planting, automatic irrigation, seating areas and a boules court. The lower level of the house provides a large multi-purpose room suitable for entertaining, games or home working, together with a bar area, laundry and a particularly spacious garage with room for more than two vehicles. Additional parking is available within the gated grounds.

Built with comfort and efficiency in mind, the villa includes underfloor heating, air conditioning, photovoltaic panels, solar hot-water production and external thermal insulation, resulting in an A+ energy rating and reduced day-to-day running costs. With approximately 320 m² of built area, sea views, extensive leisure facilities and a convenient location close to central Tavira, this is a highly complete property for buyers seeking a permanent home, refined second residence or quality investment in the Eastern Algarve.

Features and fittings mentioned are subject to agreement and verification between the vendor and the buyer.
