Posted:	Oct 03, 2026

Description:

Located in Bogádmindszent.

In Bogádmindszent, only 20 km from Pécs, in a quiet, peaceful environment, we offer for sale a 90 m², fully and meticulously renovated, insulated family house, which includes a spacious, 2000 m² plot. Thanks to the renovated condition of the property, you can move in immediately.

The house is located in the immediate vicinity of a park surrounded by plane trees, so it can be an ideal choice for those who want to live in a calm environment close to nature, but at the same time convenient access to Pécs is also important for them.

The central living space of the brick-walled, insulated family house is a spacious, one-story kitchen-living room, next to which there are two separate rooms and a bathroom. The layout is practical and livable, whether for couples or small families.

During the renovation, special attention was also paid to the technical content: the electrical network of the property was made with new copper pipes, and the water and sewage pipes were also replaced with new plastic pipes. The house is connected to a wired water, electricity and sewage network, and the gas line is located in the street.

The home is heated by a wood-burning fireplace and air conditioning. The insulated building and the renovated technical networks are an additional advantage for those who are looking for a property where they do not want to deal with major modernization work immediately after moving.

The 80 m² paved terrace connected to the house significantly expands the usable living space. Thanks to its size, it provides a comfortable place for family lunches, gatherings of friends or simply for outdoor relaxation.

The 2000 m² yard offers many possibilities for use. Several storage rooms, buildings suitable for keeping animals and a dog kennel are also available, while the cozy garden grill created in the shade of the sycamore trees creates a pleasant place to relax together.

One of the special and characterful elements of the property is the large, open garage made of logs, which can comfortably fit up to two cars.
