Loivo reminds us from the outset of a distinguished Poet is from Cerveirense, who died on September 26, 1968, and who left us a legacy of several works. This is Rosa Varela who greatly admired and wrote the "Alminhas do Pedroso", now fortunately replaced in its place and duly preserved.

These are still there next to National Road 13 and the one that was his home, constituting a valuable historical landmark that reminds us of a beautiful episode of the Restoration, in which the commander of the post of Loivo, Gaspar Mendes, externalized the bravery of our military. Gaspar Mendes fell gloriously on the field of combat, having inflicted a heavy defeat on the invaders on the night of September 24, 1643.

It is said that it was on that date that Gaspar Mendes waited for the landing of the invading forces, falling on them by surprise, however, eventually being captured and savagely mutilated
