ABOUT THE AREA

Located about 30 miles off the coast of Fort Myers, Sanibel Island and Captiva Island, Florida is the perfect getaway vacation destination. Whether it's a family vacation, romantic adventure or an escape to the beautiful beaches, there's no other place to escape to than Sanibel and Captiva Islands.

Sanibel and Captiva Islands are two small islands off the coast of Florida that are popular because of their low-key, quiet, beach settings. The pristine white beaches, coupled with the lush tropical environment, bring out a level of relaxation that cannot be found anywhere else. For unwinding and relaxation purposes, this is the perfect place for you to be. Sanibel and Captiva have some of the best beaches in Florida and both Islands make for the perfect vacation destination. Enjoy 15 miles of beach with endless stretches of sand, 25 miles of bike paths, 50 types of fish, 230 types of birds, 250 kinds of shells – and the best part? 0 stoplights!

Development here is strictly controlled, there are no high-rise buildings and most of the islands are preserved in a natural state, making them ideal for exploring on foot or by bicycle. The two islands, connected by a bridge and joined occasionally at low tide, are home to a number of small communities with a selection of restaurants, galleries and shops and even a local theatre. While each island has its own personality, they are both known for their seashells, and residents and visitors alike can be seen in the 'Sanibel stoop' or the 'Captiva crouch' while searching for some 200 species on the islands' glorious

beaches.

Captiva, the larger of the two islands, was once rumoured to be a pirate stronghold and home to conquistadors. These days excitement comes in the form of fishing, golf, getting out in a kayak and relaxing on the beach watching pelicans fish for their dinner. The smaller Sanibel island boasts the wonderful Ding Darling wildlife refuge and bird sanctuary which is home to 220 species of bird, more than 50 types of reptile and 32 different kinds of mammals; the refuge features wonderful birdwatching spots, bike and walking paths, winding canoe trails and a four-mile scenic drive.
