The estate "Tenuta i Poggi del Tartufolo" is a large property in the heart of Umbria, located in the area bordering the nature reserve 'Bio Sfera del Monte Peglia', a UNESCO heritage site located in central Italy, at the confluence of the River Tiber and the River Paglia from which Monte Peglia emerges. The property is currently a hospitality business with a farm (agritourism) but could also be transformed into a large residence to host family and friends. The main farmhouse is built in traditional stone – it is renovated, ready to move in and offers a living area of over 300 sqm. It is composed of 3 independent residential units that are divided as follows: 1) Master apartment (210 sqm) – On the ground floor there are a kitchen, a living room with fireplace, a large lounge (40 sqm), a bathroom, a cellar, an oven and large porch (85 sqm), a very characteristic and panoramic feature. On the first floor there are 2 comfortable bedrooms and a bathroom. 2) Guest apartment (56 sqm) with a living room and kitchenette, a double bedroom, and a bathroom. 3) Guest apartment (63 sqm) with a living room and kitchenette, a double bedroom, and a bathroom. There is also a garden courtyard with beautiful plants and flowers, some fruit trees and with a beautiful, fenced swimming pool. The property also includes a barn (80 sqm) and another building for agricultural use with a large shed-warehouse (260 sqm). The estate includes a generous land plot with hills and flat areas of a total of 121 hectares divided as follows: 55 hectares of farmland, 10 hectares of pasture, 4 hectares of olive groves with about 1.300 productive olive trees, and 51 hectares of forest for mushrooms and the prized truffles (rotation cutting). The area is rich in water thanks to springs and streams; therefore, the land is fresh and productive. The beautiful nature and the panoramic views

surrounding the property create an oasis in nature. A unique opportunity to work and live in harmony with the surrounding environment. The property is sold furnished. There is the possibility of buying the property with just parts of the land, please ask your agent for further information.

The main farmhouse and the outbuildings are renovated, ready to move in – with stone walls, beams, and terracotta but also practical smooth ceilings and single-fired floors that are easy to clean. Currently the single apartments are separated but they can be grouped together for a larger home. There is the possibility for improvements and adjustments to make the property even more interesting. Regarding the land, there are specialised experts for potential start-ups or management.

All utilities are available: electricity, 3 boilers powered by LPG tank for heating and well above the farmhouse for water system that feeds a cistern at the entrance to the property. There is the possibility for adjustments with the installation of new innovative systems, such as solar panels, photovoltaic panels etc.

This property represents an interesting opportunity as a business, a vacation home, or an accommodation facility.
