ABOUT THE AREA

Maribago is a busy bayside area that's home to a namesake public beach surrounded by dive centers and tour agencies offering island-hopping trips. Nearby are chic resorts with private beaches. Tiny roadside stalls serve fried street snacks and Filipino dishes, while upscale restaurants range from American to Korean. Shops on M.L. Quezon National Highway specialize in souvenirs and beach accessories.

Lapu-Lapu City, officially the City of Lapu-Lapu, is a 1st class highly urbanized city in the Central Visayas region of the Philippines. According to the 2020 census, it has a population of 497,604 people. It was formerly known as Opon, the city being renamed to its present name in 1961.

Lapu-Lapu City is a first class and a highly urbanized city in the province of Cebu. It occupies most of the Mactan Island, and also covers the Olango Island group and a few islets. The city is also part of the Cebu Metropolitan Area.

The city is joined to Mandaue City on mainland Cebu by the Mactan-Mandaue Bridge and Marcelo Fernan Bridge. Mactan-Cebu International Airport, the second busiest airport in the Philippines, is located at Lapu-Lapu City.

Lapu-Lapu City has been rated as among the country's most business-friendly places, according to a study of the Asian Institute of Management, the Canadian and Australian Government, the International Finance Corporation, the World Bank, the National Competitive Council and the Department of Trade and Industry.

The city ranked first in the study's 'Cheapest Place to Start a Business.' It also landed second in the '2007 Most Competitive Metropolitan City in the Philippines,' second in the 'Least Procedures to Start a Business' and sixth place in the 'Least Number of Days to Start a Business.'

Sound practices such as fast-tracked permits, the setting up of 'one-stop-shop' and the recognition of top investors and taxpayers help ensure that investments come and stay. Tax holidays at economic zones also contribute to the rise of more businesses in the city.

Local colleges, universities and training centers ensure a steady reserve of highly-skilled and English-speaking workers. International schools and distance learning, on the other hand, offer sufficient alternative education for children of expatriate families.
