On the coast of one of the most authentic and sought-after places on the Montenegrin coast, in the picturesque and historical village of Rezevici, lies the villa Casa Olivia – a unique building that combines modern architecture, tranquility of nature and breathtaking views of the Adriatic Sea.

The villa is in the final stages of construction, with final works scheduled for the coming months, giving the future owner a rare opportunity to design the interior and exterior according to their taste, needs and lifestyle.

Casa Olivia has been carefully designed and built, its elevated position above the sea, immersed in Mediterranean vegetation, guarantees complete peace, privacy and panoramic views that will not be obstructed in the future.

The total gross area of the property is 189 m<sup>2</sup>, distributed over three floors.
